Operating & Maintenance Costs:

	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

Prior Funding History / Additional Information:

The purpose of this program is to renovate and modernize public housing units.

The projected outcomes are:

- Major interior and exterior renovation of all units at Swan Lake Terrace in Sitka.
- Major interior and exterior renovation of all units at Geneva Woods in Juneau.

The federal government, through the U.S. Department of Housing and Urban Development (HUD), provides Public Housing Authorities (PHA) with money each year to renovate and modernize their public housing through the Capital Fund Program (CFP). To access this money, each PHA, with the active involvement of residents and local government officials, must develop a comprehensive (five-year) plan detailing modernization needs within the PHA's housing inventory and establishing a timetable for meeting those needs. The dollar amount of the annual grant is established by a formula using the number, configuration, and size of the PHA's low rent units. The annual grant also provides funds for administrative expenses, tenant-education projects, drug-elimination/safety projects, and management improvements.

Projects funded by this year's request include major interior and exterior renovation of all 20 senior units at Swan Lake Terrace, located in Sitka. This will entail replacing the carpet and vinyl, interior painting, kitchen and bathroom renovation, lighting and security upgrades, installation of ADA showers and tubs, new appliances, and upgrades to the sprinkler system.

In addition to Swan Lake, this year's request funds a major interior and exterior renovation of all 25 multifamily units at Geneva Woods, located in Juneau. This will entail kitchen casement work, window replacement, electrical and mechanical upgrades, replacement of kitchen appliances, entry decking, and addition of playground equipment.

Also included are funds to provide for operation and management improvements, such as PHA staff training; resident training and support services; staffing for resident learning/training centers; provisions for security services at low rent developments; computer software upgrades; and area-wide network enhancements at low rent developments.
